

## Policy for the Use of Images of Children

This policy is to be read alongside our e-safety policy and home school agreement.

Working with pupils may involve the taking or recording of images. Any such work takes place with due regard to the law and the need to safeguard the privacy, dignity, safety and well being of pupils. Informed written consent from parents or carers and agreement, where possible, from the child or young person, is always sought before an image is taken for any purpose.

Careful consideration is given as to how activities involving the taking of images are organised and undertaken. Care is taken to ensure that all parties understand the implications of the image being taken, especially if it is to be used for any publicity purposes or published in the media, or on the Internet.

Adults remain sensitive to any children who appear uncomfortable, for whatever reason, and should recognise the potential for such activities to raise concerns or lead to misunderstandings.

No images are to be taken 'in secret', or in situations that may be construed as being secretive.

Any concerns regarding the inappropriate, or intrusive use of images are to be immediately reported.
